

Denta Staffing.

Working in dental care.

Permanent, interim, locum and secondment.
You set the pace.

**What. Where.
How. Who.**

What should your next job do better than this one?

That is where we start. Only once we know, do we start searching.

Dental care only.

We place people exclusively in dental and orthodontic practices.

That is how we know the practices, the teams and what they pay.

CLINICIANS

Dentist
Dental specialist
Orthodontist
Dental hygienist

ASSISTING AND PREVENTION

Dental assistant
Prevention assistant
Periodontal prevention assistant
Orthodontic assistant

PRACTICE AND LAB

Practice manager
Front desk and reception
Dental technician

Across the Netherlands.

Practices across the country, including assignments you will not find online. We call when it suits you, also after practice hours.

Four ways to get started.

Permanent

RECRUITMENT & SELECTION

Only at practices where we would apply ourselves with confidence.

Short-term

INTERIM, FREELANCE, LOCUM

For a day or a longer period. Assignments you will not find online.

Flexible capacity

SECONDMENT

On our payroll, working at the practice. The middle ground when freelancing is no longer an option.

Try before you hire

TEMP-TO-PERM

You start through us and then join the practice payroll. Terms agreed in advance.

You stay in control.

01 A message is enough

A CV or a phone call. We prefer a conversation to a tidy form.

02 We discuss what you want

Atmosphere, pace, salary, travel time. You hear up front what you can realistically earn.

03 Only with your consent

Your name and CV never go to a practice until you have said yes.

04 You never pay anything

Practices pay us, not you. Even when it is a no, you hear where you stand.

WITH WHOM

You talk to Olivier.

I am Olivier Verwerda, founder of Denta Staffing. I have worked in recruitment for eight years and now focus only on dental care. I only introduce you to practices I have visited myself.

After every interview, you hear from me where you stand.

Olivier Verwerda
