

Denta Staffing.

Specialists in dental staffing.

Permanent, interim, locum, secondment and temp-to-perm.

Dental care only, across the Netherlands.

**What. Where.
How. Who.**

An empty chair costs revenue and strains your team.

That is why we exist. Staff for dental and orthodontic practices, and nothing else.

Dental care only.

We place staff exclusively in dental and orthodontic practices.

That is how we know the roles, the practices and the people.

Across the Netherlands.

We work for practices across the country. We do the intake at your practice or by phone, whichever suits you.

Four ways to strengthen your team.

Permanent

RECRUITMENT & SELECTION

We search, screen and introduce. You hold the interviews and make the hire.

Short-term

INTERIM, FREELANCE, LOCUM

Temporary cover for leave, absence or an open position. For a day or a longer period.

Flexible capacity

SECONDMENT

Longer-term cover without employer risk. You pay an hourly rate, we handle the rest.

Try before you hire

TEMP-TO-PERM

Seconded first, then employed by you. Terms agreed in advance.

Honest first, then we search.

01 One point of contact

From intake to aftercare. Someone who knows your practice and never has to start from scratch.

02 Salary indication up front

You hear what the role costs in the market before we start searching. Even if it is not what you want to hear.

03 Spoken to in person

Every candidate we introduce has been spoken to and checked for registration.

04 A personal answer

Even when it is a no. For you, and for every candidate.

WITH WHOM

You talk to Olivier.

I am Olivier Verwerda, founder of Denta Staffing. I have worked in recruitment for eight years and now focus only on dental care. Before I approach anyone, I first come and see your practice. **From intake to placement, you deal with me.**
